Notice regarding Timing of Report on Results of Investigation by
Third Party Committee as of the present

As we announced in the “Announcement regarding Details of the Third Party Committee”, dated January 24, 2013, we established a third party committee to pursue an independent and objective verification of the casino resort project being promoted by our corporate group in the Philippines. The plan was that the end of May 2013 would be the target date for the report regarding the investigation results. However, we received notice from the committee that, as of the present, while they have completed some of the interviews of those involved necessary for this investigation, they need to adjust the planned timing of the final report.

This is due to the fact that the third party committee received notice from the agent of an important interviewee that he will only provide testimony within the scope of the Philippine domestic judiciary and administrative proceedings, and thus the committee needs to conduct additional investigation.

Consequently, we are providing notice that we received a report saying that mid-June is the target date for the timing of the report on the investigation results.
